Contents of Volume 48

Volume 48 No. 1 May 2004

L. STEFANUTTI, A. R. MACKENZIE, V. SANTACESARIA, A. ADRIANI, STEFANO BALESTRI, S. BORRMANN, V. KHATTATOV, P. MAZZINGHI, V. MITEV, V. RUDAKOV, C. SCHILLER, G. TOCI, C. M. VOLK, V. YUSHKOV, H. FLENTJE, C. KIEMLE, G. REDAELLI, K. S. CARSLAW, K. NOONE and TH. PETER / The APE-THESEO Tropical Campaign: An Overview 1–33

E. BABOUKAS, J. SCIARE and N. MIHALOPOULOS / Spatial, Temporal and Interannual Variability of Methanesulfonate and Non-Sea-Salt Sulfate in Rainwater in the Southern Indian Ocean (Amsterdam, Crozet and Kerguelen Islands) 35–57

JOZEF PEETERS, GAIA FANTECHI and LUC VEREECKEN / A Generalized Structure-Activity Relationship for the Decomposition of (Substituted) Alkoxy Radicals 59–80

R. A. SALMON, C. L. SCHILLER and G. W. HARRIS / Evaluation of the Salicylic Acid–Liquid Phase Scrubbing Technique to Monitor Atmospheric Hydroxyl Radicals 81–104

Book Review 105–106

Volume 48 No. 2 June 2004

GUEY-RONG SHEU and ROBERT P. MASON / An Examination of the Oxidation of Elemental Mercury in the Presence of Halide Surfaces 107–130

A. PLEWKA, T. GNAUK, E. BRÜGGEMANN, C. NEUSÜSS and H. HERRMANN / Size-Resolved Aerosol Characterization for a Polluted Episode at the IfT Research Station Melpitz in Autumn 1997 131–156

REGINA M.B.O. DUARTE, CASIMIRO A. PIO and ARMANDO C. DUARTE / Synchronous Scan and Excitation-Emission Matrix Fluorescence Spectroscopy of Water-Soluble Organic Compounds in Atmospheric Aerosols 157–171

LINDA POMMER, JERKER FICK, BARBRO ANDERSSON and CALLE NILSSON / The Influence of O_3, Relative Humidity, NO and NO_2 on the Oxidation of α-Pinene and Δ^3-Carene 173–189

KRZYSZTOF J. RUDZINSKI / Degradation of Isoprene in the Presence of Sulphoxy Radical Anions 191–216

Volume 48 No. 3 July 2004

JINSHENG FENG and DETLEV MÖLLER / Characterization of Water-Soluble Macromolecular Substances in Cloud Water 217–233

EMESE A. KOVÁCS and LÁSZLÓ HORVÁTH / Determination of Sulfur Balance Between the Atmosphere and a Norway Spruce Forest Ecosystem: Comparison of Gradient Dry + Wet and Throughfall Deposition Measurements 235–240

JILLIAN BAKER, JANET AREY and ROGER ATKINSON / Kinetics of the Gas-Phase Reactions of OH Radicals, NO_3 Radicals and O_3 with Three C_7-Carbonyls Formed From The Atmospheric Reactions of Myrcene, Ocimene and Terpinolene 241–260

EMMANUEL DAMIEN RIVIÈRE, MICHEL PIRRE, GWENAËL BERTHET, JEAN-BAPTISTE RENARD and FRANCK LEFÈVRE / Investigating the Halogen Chemistry From High-Latitude Nighttime Stratospheric Measurements of OClO and NO_2 261–282

ERNESTO MARTÍNEZ, ALFONSO ARANDA, YOLANDA DÍAZ-DE-MERA, ANA RODRÍGUEZ, DIANA RODRÍGUEZ and ALBERTO NOTARIO / Mechanistic and Kinetic Study of the Gas-Phase Reaction of Atomic Chlorine with Cyclohexanone using an Absolute and a Relative Technique; Influence of Temperature 283–299

STEFAAN HOORNAERT, RICARDO HENRIQUE MORETON GODOI and RENÉ VAN GRIEKEN / Elemental and Single Particle Aerosol Characterisation at a Background Station in Kazakhstan 301–315

Book Review 317–319

Book Review 321–322
